

Gabrielle Handy

Full-Stack Software Engineer

[Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNOLOGIES

Languages | Typescript, JavaScript (AJAX, JSON), HTML, CSS, Java, Python, SQL

Frameworks & Libraries | Angular, Spring Boot, Flask, React, Bootstrap, Jinja, SQL Alchemy

Database & Industry Tools | Git, GitLab, GitHub, Command Line, AWS, Maven

Methodologies & Practices | Agile and Scrum methodologies, Test-Driven Development (TDD), Pair programming

Security & Authentication | Spring Security, JWT

API Development & Testing | Karma, REST API Development, JUnit, Cucumber, MockMVC, Rest Assured, Postman

PROFESSIONAL EXPERIENCE

Junior Software Developer

December 2023 - Present

Interapt-CVS Health – Remote

- Developed front-end applications using Angular to build dynamic and responsive web interfaces.
- Conducted unit tests with Karma to ensure code quality and reliability.
- Performed code reviews for team members' front-end work, ensuring adherence to best practices.
- Mentored a Senior Business Analyst transitioning to software development through pair programming.
- Led the updating of application versions, coordinating with team members for smooth transitions.
- Fixed bugs using Angular and TypeScript to maintain application stability and performance.
- Completed over 50 independent user stories, demonstrating the ability to manage tasks autonomously.
- Merged over 200 pull requests, ensuring proper review and integration into the main codebase.
- Added a new section to the webpage from scratch using Angular, writing approximately 2500 lines of code.

Information Specialist

February 2023 - December 2023

Forsyth County Public Library - Winston-Salem, NC

- Developed and designed promotional materials (flyers, displays) for library programs and events using graphic design software (e.g., Canva).
- Provided technical support to library patrons, troubleshooting and resolving technology-related issues, showcasing strong technical problem-solving skills.
- Maintained and organized digital records and data using advanced features of Microsoft Excel, including pivot tables.
- Streamlined library operations by utilizing specialized library software to automate processes such as issuing library cards, room reservations, and managing book holds.

PROJECTS [[PORTFOLIO](#)/[GITHUB](#)]

Travel Buddy Capstone for Hackbright

Travel Buddy is a web app where users can create a travel planner with destinations they plan to visit.

Live Demo: travelbuddy.top

Video Demo: [video demo link](#)

Language(s), Technology, and Tools used in the project:

Language: Python, JS, HTML, CSS

Framework: Flask

Database: PostgreSQL Web

Server: AWS

LinguaTune (Frontend)/ (Backend) Capstone for Interapt

LinguaTune is a language learning platform that helps users' study and practice languages through music.

Video Demo: [video demo link](#)

Language(s), Technology, and Tools used in the project:

Language: Java, Typescript, HTML, CSS

Framework: Spring Boot, Angular

Security: Spring Security, JWT Tokens

Database: H2 (In-memory database)

EDUCATION/TECHNICAL TRAINING

General Assembly, Remote

Full Stack Java Developer Immersive

August 2023 - November 2023

Hackbright Academy, Remote

Full-stack coding program

November 2021 - January 2022

The University of North Carolina at Greensboro, Greensboro, NC

Bachelor of Arts in International Studies minor in Chinese, Spanish

August 2014 - June 2020

Beijing Normal University, Beijing, China

Chinese study

January 2019 - January 2020
